

ANALYTICS in METABOLOMICS

Friday November 2, 2018

14:00 - 18:00

O|2 Building VU campus

Room 00E63 (Popup)

De Boelelaan 1108

Amsterdam

Is it the analytics that drives metabolomics, or metabolomics that drives the analytics?

Join us for this event and find out

Program

14:00	Coffee and tea	
14:25	Welcome	
14:30	Scentsitive nature: Green leaf volatile perception in plants and insects	Silke Allmann <i>University of Amsterdam</i>
15:00	Evaluation of rapid quenching methods for quantitative analysis of intracellular metabolites	Petra Krumpochova <i>Vrije Universiteit (VU) Amsterdam</i>
15:30	Extracting more information using less sample by capillary electrophoresis-mass spectrometry	Rawi Ramautar <i>Leiden University</i>
16:00	New advances in metabolomics for biomarker discovery and drug surveillance: Insights into Cystic Fibrosis and Psychiatric Medicine	Philip Britz-McKibbin <i>McMaster University Hamilton</i>
16:45	Drinks	
-18:00		

free admission; no registration needed
